Field Day

Experimental Station, Lacombe
Saturday, July 3rd, 1926.

What is the best grass for hay?
What is the best grass for pasture?

What is the best silage crop?
Every farmer in Alberta is interested in these questions. Every variety of grass and silage crop which gives promise of success in Central Alberta is now growing at the Experimental station. Come and see these crops growing, learn the best methods for seeding and harvesting, and join in the discussion.

Some of the hay crops are alfalfa, sweet clover, red clover, alsike, white dutch, timothy, brome and rye grasses.

Some of the annual hay crops are Sudan grass, teff grass, millets and green feed mixtures.

Root crops include mangels, sugar beets, carrots and turnips.

If possible, come early and see the grounds and live stock before noon. Hot water will be provided for those bringing their lunches.

KYANIZE

IS HIGH-GRADE.

Kyanize Sanitary Floor Enamel.

A new and different coating for old floors that is washable, sanitary, and exceedingly tough and durable. Will not crack, peel or chip.

Kyanize Floor Finish.

One gallon of this will cover 400 square feet two coats when properly applied.

Kyanize Celoid Finish.

Here is a product that fulfills completely the demand for a durable, lustrous and washable semi-gloss enamel finish for Walls, Furniture and Woodwork.

Provincial Crop Report

June 12, 1926

The present crop growing season in Alberta is being characterized by extremely variable conditions. While the central and northern portions of the province are experiencing very heavy precipitation, the south-western and south-eastern districts report dry conditions.

Throughout the larger portion of the province there has been sufficient moisture to carry the growing crops along satisfactorily. In fact, in some of the central and northern districts, heavier precipitation than has been experienced in several years has been recorded, in one storm in the Edmonton territory more than three inches having fallen. This storm was fairly general over the central part of the province. Several localities report the wettest season in years, and the crop growth has been rapid and vigorous. Similar conditions prevail in the Peace River district.

South of the main line of the C.P.R. conditions have been dry, and in the south-western and south-eastern corners of the province, the situation is somewhat critical, although the general conditions would be vastly improved by rain within the next week or

Dad's Day of Days.

June 20th.

Father's Day.

Buy Him a Tie.

MAKE DAD SMILE next Sunday. Give him a tie. You'll find ties by the hundred in our store. Ties that Dad would pick himself. But don't make him buy his own ties all his life. Measure up to Father's Day. Buy Dad a tie.

ten days. The crop on Summer-fallow in these districts is standing up very well, but the grain on spring plowed land is suffering. The dry weather has been accompanied by high winds and loss from soil drifting has not been inconsiderable. Germination has been very uneven, due partly to soil drifting and lack of moisture, and partly to the early operation of the cutworms. No further reports of damage by pests have been received, however.

Could Not Remember Wife's Christian Name

Elderly Farmer Had Never Used It in Addressing Her

In certain parts of rural England it is uncommon for a man to address his wife by her baptismal name, an illustration of which Thomas Hardy, the novelist, recently told the following story: An elderly farmer called in a lawyer and explained that he wished to make his will. The lawyer took out his fountain pen, and prepared to receive his client's instructions. "I'll leave all my brass to my wife," the farmer said. "We've been married thirty years." "What's your wife's Christian name?" asked the lawyer, making a note of the request. The farmer scratched his head, thought hard for several seconds, and finally said that he couldn't remember. The lawyer thought of a plan that would spur his memory. "Walk to the door," he suggested, "and shout upstairs as if you were calling her." The farmer did, and shouted, "Missus."

THE OLD RELIABLE

and white. She'd always had a frock without sleeves and a fairly low cut neck, but each of them, modest affairs, had made her hungry for something real—something that really would be a gown. At last! What the feel of that dress was to Joanna nobody but Joanna will ever know. She wouldn't admit it herself, and it's the sort of thing that can be painted on a canvas or put into music, but never said in words.

She heard the rattle of the door-bell. She signed to Georgie to be quiet and opened her door an inch or two. She heard Mrs. Adams answering an inquiry, and the voice she heard then was not John's, but the quiet, modulated tones of the man she had met at the bank—Brandon.

She heard Mrs. Adams' confusion. "Why, yes, I'll tell her you're asking for her," the puzzled landlady was saying. "But I don't know whether to put you in the parlor to wait or not. There's someone—her friend—is in there. I've just been talking to him about her. She doesn't know he's here yet."

And then Brandon's suave voice: "I am sure we will get on famously, her—her friend and I. We'll talk about her, too, you see, if she is very long coming down. I have brought her some flowers. Will you be good enough to hand them to her?"

Joanna heard Mrs. Adams herding him into the "drawing room only" and in her diffident, blundering way mumbled an introduction. So John had come in. She was right when she thought she heard him. And he and Mrs. Adams had been talking together all this time in muffled whispers so she would not know—talking of her. And now Brandon, a man who she thought knew what was a secret from her, had come, as he had lightly threatened, and John would see him. Brandon and John! She wanted to keep John. She'd never realized before how much.

She didn't know why, but Joanna was afraid as she went downstairs; so soft and young and beautiful in her costly new gown, and so flushed from the day's events, but afraid.

(To be continued)

Little Helps For This Week

Not slothful in business, fervent in spirit, serving the Lord.—Rom. xii, 11.

Since Thou hast added now, O God! Unto my life another day, And giv'st me leave to walk abroad And labor in my lawful way, My walks and works with me begin; Conduct me forth and bring me in.—George Wither.

Remember that if the opportunities for great deeds should never come, the opportunity for good deeds is renewed for you day by day. The thing for us to long for is the goodness, not for glory.—Frederic W. Farrar.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

A man is prouder of things he thinks he can accomplish than of those he really can.

Minard's Liniment for backache

Asparagus Used Centuries Ago

Culture of Plant Introduced Into England During Reign of William III.

Before the days of Henry VIII, vegetable gardens were not made in England. Asparagus, with its remarkable properties, was used as a food 200 B.C., and though our Tudor ancestors ate the whole of the stalks with spoons, the culture of this plant was not introduced until the reign of William III, when Sir William Temple brought it from the Hague. The King, visiting Sir William at Moor Park, showed Jonathan Swift, the secretary, how to eat it in Dutch style. "King William always ate the stalks whole," said Swift.

During the last decade the per capita consumption of meat in Europe has increased 50 per cent.

It takes forty years to make a military machine; four years to break it; a million years to learn better.

Gospel Not World Wide

Although the Gospel has been carried into most corners of the world in execution of the Biblical mandate, vast fields yet await the missionary. China has 300,000,000 adherents of "heathen" religions (or philosophies); Japan, 72,000,000 out of a population of 77,000,000, and India's non-Christians number 217,000,000.

THE ONLY MEDICINE BABY HAS HAD

Is What Thousands of Mothers Say of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many minor ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says:—"I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving it Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

World's Largest Theatre

A group of Italian capitalists is arranging to construct at Genoa what is claimed will be the largest theatre in the world. The site chosen is the Piazza Tagliata, and will face the sea. This new playhouse at Genoa is to cost \$8,000,000, or 40,000,000 lira in native coin.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

Produces Cold Light

A demonstration of a method of producing cold light was given recently by a scientist at Manchester, Eng. By the process the electricity is changed to light without the luminous substance being heated in any way.

THE STORY THUS FAR

Joanna, pretty, ultra-modern shop girl, is informed by her employer, Graydon, that an unknown man has given her a million dollars to spend as she wishes. There are no strings to the gift—no conditions to meet—she is not even to know the name of her benefactor. She endeavors in vain to learn more from banker Eggleston, where she meets his nephew, Brandon, a man-about-town, who helps her write her first check and tells Joanna that he intends to make love to her. Dazed with the amount of money, hurt by the fact that her shop girl companions and the merchants with whom she deals, spending her new found fortune, believe her to have gone the limit in securing the money, she returns home that night expecting to meet John, her hopelessly "old-fashioned" girlhood sweetheart.

CHAPTER VI.—Continued.

"Miss Twenty-seven" had become the slender writh of a hothouse flower, all perfume, softness and delicate color; beneath her milk wrap she shone vaguely grey; smart grey tailleur that fell straight from underneath her shoulders, but hugged her hips; skirt that dropped into straight lines without a touch of trimming or variegated pleats or colors; a thing that was infinitely and expensively "avenue"; grey sheer hose of a quality that echoed into the very souls of George and the rest! Slippers, slippers that were wondrous things of some skin with the sheen of grey velvet! A

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run-down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."

Mrs. NELLIE HORN, 28 St. Matthews Avenue, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition. O

OPERA HOUSE

SATURDAY, JUNE 19th

"Desert Gold"

a Zane Grey story.

America's turbulent south-western border during the closing years of the nineteenth century brought to the screen as never before.

TWO SHOWS starting at 8 p.m.

WEDNESDAY, JUNE 23rd

NO SHOW. Political Meeting.

Mr. and Mrs. Kendrick and Mr. and Mrs. Ruby went visitors to the oil fields over the week-end. Mrs. Hembling, of Vernon, B.C., is visiting her sister, Mrs. Pross and friends in the district. The ladies of St. Cyprian's will hold a sale of work and home cooking at the Opera House on Saturday, June 26th.

Rev. J. Harris, former pastor of Zella and Westcott, will preach at those places on Sunday, next. Zella at 11 a.m., Westcott, 8 p.m. All welcome.

A miscellaneous shower was given at the home of Mrs. Sexsmith, on Monday evening, by a number of friends for Miss Stella Devolin. A very enjoyable evening was spent by a large number.

Wes. Hardy brought into the Pioneer on Monday a sample of

fall rye, pulled from his farm near town. One root showed that from one kernel had sprang 201 stalks, the length of these being twenty-six inches.

The Sundre Stampede will take place on June 23-24, under entirely new management this year, and with the Elks band in attendance, together with other attractions, a very enjoyable time should be spent by all.

A series of evangelistic services will be held in the big tent, Didsbury, commencing Sunday, June 20th, at 2.30 and 7.30 p.m. Bishop Fred C. Hahn will be in charge, and he will be accompanied here by three or four other speakers. Everybody is welcome to attend these services.

A meeting of the directors of the Didsbury Agricultural Society was held last week, and

discussion took place relative to the fair to be held on August 10 and 11. Among the improvements to be made will be the erection of additional sheds for horses and cattle.

The ball game here on Tuesday night, between Oks and Didsbury, was delayed somewhat by the tardy appearance of the Oks pitcher, and a heavy downpour of rain about twenty minutes after commencement of play was responsible for a hurried exit on the part of both players and spectators. Game abandoned.

The Didsbury Pioneer

Twelve Reasons for Electing Liberals.

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.

7. It stands for better health organization and encouragement

for hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province into ridings.

10. It stands for justice to the returned men in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.

2. The organization into municipalities.

3. The destruction of railway lumber and telephone monopolies which threatened its destruction in early days.

4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.

5. The beginning of labor legislation, which has remained unimproved. This includes the Factory act, the Workmen's Compensation act and other similar legislation.

6. The development of the vast Peace River area.

7. The organization of schools the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.

8. Franchise for women and all legislation safeguarding the rights of women.

9. Hospital legislation and all progressive health legislation.

10. Soldier relief legislation.

12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

Vote Out The Party System

What caused the organized farmers to enter the political field, and with the consent of the electorate, to take over the reins of government in Alberta five years ago? Principally, the cynical disregard of the needs of Western Canada's greatest industry by party politicians, and the failure of the party government formerly in power to provide clean and efficient administration.

Every other business and industry in Alberta is organized and uses all the political pressure it can bring to have its wishes passed into law. During the last session of the Alberta Legislature, deputations representing organizations of manufacturers, labor unions, doctors, lawyers, dentists, livestock dealers, etc., put their views before the members of the house. This is right and proper, but why are the farmers denounced for organizing for the purpose of securing representation in the House? The reason is that the U.F.A. interferes with the working of the party system.

Alberta is primarily an agricultural province. Legislative action is required to secure lower freight rates, encourage efficient marketing, build better roads, and generally secure the welfare and prosperity of the farming community.

The party system would not be alive today but for the nucleus of city politicians who re-

view it at every election. Hundreds of city orators are speaking in every part of Alberta during this election, endeavoring to divide the farmers into opposing groups. The overtures made for a business government, with city representatives co-operating with rural members on non-party lines, have been rejected, except by labor.

Party System Inefficient

The party system has proved inefficient in administration as compared with the co-operative system. Here are some additional comparative figures:

Land Titles Office Costs, 1921, \$241,909, 1925, \$156,753; Election Costs, 1921, \$248,000, 1923 Pictou, \$133,000; Estimated Election Costs, 1926, \$130,000. Reductions in controllable expenditures, 1921 to 1924 inclusive, Alberta 14 per cent; Saskatchewan, 12 per cent; Manitoba 8 1-2 per cent. Increases in all other provinces. Agricultural Education, 1921, 320 students, \$191,000, 1925, 360 students, \$103,000. Many other instances can be given.

The U.F.A. are expending a considerable sum in advertising through the weekly press, the funds for this being contributed by the membership, so that the electors may know the truth. The city newspapers are endeavoring to perpetuate the party system.

**A VOTE FOR A U.F.A. CANDIDATE IS A VOTE FOR EFFICIENT
AND IMPARTIAL ADMINISTRATION.**

Issued by the U.F.A. Publicity Committee, Calgary.

Last October--and Now

It is only a few months ago since Captain Shaw was a candidate for the Dominion Parliament. He was running in West Calgary. At that time he was an independent with the support of the U.F.A. Naturally he wanted all the farmer votes he could get.

And so when the Captain was speaking in the rural portions of the West Calgary riding last October he had some nice things to say. He said, for example, that the present Alberta Government was the most efficient and economical government that the province had ever had. In fact he was sure that it was the most capable provincial government in Canada. That was pretty high praise for any government.

**WANTED—Barley or mixed grain
and feeder hogs at all times.
Didsbury Feeding Co.,
t/28 per A. R. Kendrick**

Now Mr. Shaw is saying that the Alberta Government is inefficient and extravagant. What has made the difference? Has

the efficient and economical government, that Mr. Shaw praised so highly last October, degenerated so rapidly as to be so undesirable in eight short months? Or must we believe that Captain Shaw is not the noble-minded person he is touted to be? For surely no thoroughly sincere man would say one thing to catch votes at one time and an entirely different thing to catch votes eight months later. It's hard to tell, for the ways of politics as practised by the old political parties are just about past finding out.—Labor News.

Why You Should Support the Government.

Come and Hear the Reasons.

Meetings will be held at

**Lone Pine Com'ty Hall, afternoon of June 22
Rugby, June 23rd, at Three p.m.
Didsbury, June 23rd, at Eight o'clock.**

Speakers :

A. B. Claypool and H. E. Schofield

The U.F.A. extends a hearty invitation to all.

Joanna

by H. L. GATES

Copyright 1923 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THUS FAR

Joanna, pretty, modern, a shop girl, making her way alone in the world is summoned into the presence of Graydon, her employer, to learn that an unknown man has given her a cool million to spend as she wishes. Dazed, incoherent, she asks as to the meaning of this deluge of money. She is told that she is not even to know the name of the man who is giving the money. "There are no strings" to the gift. "You will not be asked to give anything," said Graydon, in reply to her questions. "Still unable to understand this overwhelming information, she is sent to banker Eggleston where the money is on deposit."

CHAPTER III.—Continued.

"If your benefactor has directions to give," Eggleston went on, with the banker's manner of monotonous dwelling upon the detail of a financial bargain, they will be given the bank, and will have to do only with additions to your funds, or the cessation of them. At any rate, the present deposit of one million dollars, which includes securities we shall be glad to negotiate for you should you require the cash, is at your disposition and none of it may be withdrawn from you. It could not be, in any event, as it has been completely transferred to your account. You must accept it, to do with it as you will. You will not be asked for an accounting."

"And it's really true that I don't have to go back to the silks? To my job at the store?"

Eggleston's smile was quizzical. "I should be rather astonished to know that a young woman with a million dollars in the bank's vaults was concerned as much with the selling of silks as the buying of them."

Joanna nodded. "If I had a million dollars you can bet the last shot on your hip—I mean you can bet I'd do a lot of buying, all right!"

"I wouldn't wonder!" Eggleston commented, shortly. Joanna looked up at him quickly, detecting the hardness in his voice. "Oh," she assured him gravely as if to defend herself against his implied disapproval: "I wouldn't put it all into dancing pumps, you know!"

The girl floundered. She'd never thought much beyond dancing pumps and their kindred things.

"What else, then?" Eggleston repeated.

There was nothing for Joanna to do but fall back upon her subterfuges. She had many subterfuges. They covered a multitude of a girl's needs nowadays.

"Wait until something like what

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year.
Lydia E. Pinkham's Vegetable Compound Brought Her Health

Moose Jaw, Sask.—"I am going to try to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side into my leg. I had it nearly a year when I went to a doctor, and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound as it saved her life years before. I took two bottles and I found I was better, so I kept on taking it and also used Lydia E. Pinkham's Sanative Wash. I have had two more children since then and am perfectly well. I used to have to lie down two or three times a day, and now I do all my housework without trouble. I always keep the Vegetable Compound in the house as I find a dose now and then helps me. I am willing for you to use this letter any way you see fit and I will answer letters. If I can help any other woman I'd be only too glad to try."—Mrs. ESTHER HOUGHTON, 712 Athabasca W., Moose Jaw, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all women.

Tanlac builds strong bodies

"I want everyone to know how Tanlac helped me. For twelve years I suffered with nervous indigestion. Three bottles of Tanlac gave back health, strength and appetite. Gained 17 lbs."—Edmund Morgan, 17 McGill College Ave., Montreal.

There's nothing like Tanlac to purify the blood, put the stomach and liver in working order and build up a run-down body.

Millions of men and women have been benefited by this great tonic and builder that is compounded after the famous Tanlac formula from roots, barks and herbs.

If you are nervous, suffer from indigestion, have rheumatism, torpid liver, buy a bottle of Tanlac at your drug store today. See how you start to improve right from the first. Take Tanlac Vegetable Pills for constipation.

the check book to his own hand he filled in the money line, "Ten thousand dollars!"

"There," he said, as he placed the paper for the girl to sign, "that will make a better beginning for you!"

The banker touched his bell. A messenger responded almost immediately.

"You will have this cashed at once," the banker ordered the messenger. "It is the first draft upon the new account of Joanna Manners. And bring the money here. She will want it immediately."

CHAPTER IV.

The First Triumph and Defeat

With the crisp notes of her ten thousand dollars spread on the table before her, with Eggleston, the grave, impenetrable banker, and Francis Brandon, debonaire, easy mannered courier of the new world into which she was being ushered, silently watching her, Joanna closed her eyes in quiet communion with herself.

It was real! The fantasy had become a chapter of life with "Miss Twenty-seven of the Silks" lifted from the valley to the hilltops where there possibly couldn't be any shadows.

Weakly, she made new battle for understanding, and again lost. They, those two men, one of which, she was sure, knew the whole of the mystery, would tell her nothing. Brandon professed to know no more than she; he declared that the banker had told him nothing of the motive or the source of her sudden shower of gold.

"But," said Brandon, "you will not shut me out, I hope, from the rest of the wonders. You will let me walk with you, now and then, along your new paths?"

(To be continued)

Talked Too Much

An Englishman and Irishman employed in a drug store in Florence went on a spree together the other day. Both were arrested. The Irishman was let off with a light fine, because he was only drunk and disorderly. The Englishman was sent to prison for eight months and fined 3,000 lire. In addition to being drunk, he had spoken disrespectfully of Mussolini. People have to speak softly in Italy these days.—Hamilton Herald.

The lawyer deals in brains and disposes of them by the case.

Failure Of One-Crop System

Attention Now Being Given to the Growing of Legumes

(By Jas. D. McGregor, Glencarroll Stock Farms, Brandon, Manitoba)

Western Canada in the past has been a small grain growing country. The climate, soil and all other conditions have combined here to justify the great grain fields to the exclusion of other lines of farming. However, on land that has been farmed from 10 to 25 years, the production has decreased from various causes, until the profits in strictly grain farming are no longer certain.

All one-crop or grain farmers realize sooner or later that the fundamental principle of farming is being neglected; that the decrease in yields and the difficulty with weeds, plant diseases and other pests, is due to the one-crop system, which depletes the available fertility of the soil, and does not provide for saving or increasing this fertility, or for controlling weeds and other pests. Hence, the great interest being taken in livestock, corn, alfalfa and clovers is not for these things alone, but because they will be the means by which the profitable yields and production of small grains may be maintained.

The one-crop system is not peculiar to Western Canada as all new countries have persisted in the crop most easily grown, and which gave the best cash return. When this crop has ceased to be profitable, usually due to the depletion of soil fertility, attention has been given to the growing of legumes, the raising of livestock and perhaps to the use of some commercial fertilizer.

"Legume" is the name of a class of plants of which alfalfa, sweet clover and other clovers, beans, peas, etc., are members. The seed is borne in some form of pod. This class of plants differ from all others in that they provide a means of obtaining nitrogen from the air. Nitrogen is one of the essential elements of plant food. No plant can make any growth whatever without it, and it is the most expensive element when bought in commercial fertilizer. It is also the most abundant element in nature, as more than half the air is nitrogen. Hence, clovers, alfalfa, etc.—legumes—are utilized for the purpose of restoring this element of soil fertility. Young animals, and particularly milk cows, must have nitrogen in their feed, for no growth or milk can be made without nitrogen.

All plants use nitrogen, but the grains, grasses, corn, etc., must rely on the small available store in the soil, while the legumes may draw on the unlimited stores in the air. For this reason the hay and seed from legumes are much richer in nitrogen than that from the grains and grasses. Legumes obtain this atmospheric nitrogen by the aid of bacteria which live in tubercles on their roots. Unless these bacteria are present, the legume would be no more able to utilize the atmospheric nitrogen than any other plant. When the bacteria are not present, or for any reason will not grow on the roots, the legume will not produce satisfactorily because it is natural for these plants to obtain a part of their nitrogen from the air. Artificial inoculation, liming the soil, etc., may be employed to advantage, especially on poorer soils.

Farmers of the old farming regions resort to every known means of saving plant food and returning it to the soil. Here in the new country, when land is worked out, we have moved on west or north, to new land, or cleared the timber from new land.

The greatest asset of the farmer is his soil fertility. Like fortunes, this fertility may either be used over and over again, or it can be dissipated and wasted in a few years. When yields are below the cost of production, or below what they formerly were, it is evident that there is need for studying this situation. Rotation of crops aids in controlling weeds, plant diseases and insect pests, and also enables the farmer to feed livestock and return a part of the fertility to the soil in the shape of barnyard manure.

The time is here when these things must receive attention, and prudent is the farmer who adopts a system of farming that will save soil fertility, and keep his land free of weeds and plant diseases, while he is yet able to do so.

Between radio and television a person may have a hard time soon finding his own business.

STATION STOVE POLISH

Keeping Fit! A Matter of Habit!

Good Health Is Within Reach Of All Who Observe This Healthful Habit

There is a very good reason why so many people find themselves subject to listlessness, headaches, biliousness and weakened vitality. They have failed to acquire that healthful habit of regular daily bowel evacuation, with the result that they find themselves victims of constipation.

Modern living conditions tend to decrease the amount of natural lubricant in the intestines, making regular easy elimination of the bowel contents difficult.

Under such circumstances poisons from the waste matter that remains behind, are picked up by the blood and absorbed by the system, resulting in undermining the general health and vitality.

Nujol, the scientific internal lubricant augments nature's lubricant, and makes elimination safe and easy.

Nujol softens the waste matter and permits thorough and regular elimination, without overtaxing the intestinal muscles.

Nujol is not a laxative, and may be taken for any length of time without ill effects. At all druggists.

Little Helps For This Week

Lo, I am with you alway.—Matt. xxviii, 20.

The day is long and the day is hard, We are tired of the march and of keeping guard,

Tired of the sense of a fight to be won, Of days to live through and work to be done,

Tired of ourselves and of being alone, And all the while did we only see, We walk in the dear Lord's company; We fight, but 'tis He who nerves our arm,

He turns the arrows which else might harm, And out of the storm He brings a calm. —Susan Coolidge.

Did you not know me, my child? You have thought the thoughts that I inspired; you have spoken my words; you set forth to fight on my side in the battle against evil; and yet you forgot me, and have often gone near to deny me while I was standing by your side, and giving you the strength to speak and think a life which you took to be your own. Look at me now, and see if I am not better than the images that have hid me from you.—Annie Keary.

Nurse.—Do you want to see the little brother the stork brought you? Bobby.—Naw. I wanna to see the stork.

LEG SORES

ARE CURABLE. If you suffer from Leg Sores or Varicose Ulcers I will send you ABSOLUTELY FREE a copy of my famous book that tells how to be rid of these troubles for all time by using my remarkable painless treatment. It is different from anything you ever heard of, and the result of over 25 years' specialising. Simply send your name and address to Dr. H. J. WHITTIER, Suite 39, 431 East 11th Street, Kansas City, Mo.

A BROKEN DOWN SYSTEM: This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—breakdown, as it were, of the vital forces that sustain the system. No matter what may be its cause (they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as night succeeds the day this may be more certainly secured by a course of **THE NEW FRENCH REMEDY, THERAPION No. 3** than by any other known combination. So easily as it is taken in accordance with the directions accompanying it, will the shattered health be restored **THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH.** and a new existence imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a disease or derangement whose main feature is weakness, that will not be speedily and permanently overcome by this new curative system, which is destined to hasten the oblivion of everything that had preceded it for this wide-spread and numerous class of human ailments. Sold by leading Chemists, or either by mail from **Dr. L. G. B. & Co., 10, Avenue de la Gare, St. Etienne, France.**

On Saturday night another Zane Grey production will be shown at the Didsbury Opera House, entitled "Desert Gold." Those who have read the story will probably welcome the opportunity to see this picture. No show will be given on Wednesday, June 23rd, the hall having been engaged for a political meeting.

Mr. William Coates, of Didsbury, who holds the lease for oil drilling rights at Olds, is preparing to erect the derrick on the

Harry Watkin farm. A bunk-house has been moved to the site, which has its entrance directly across the road from the cemetery gates. A culvert at that point has been built, and the 10-foot swath through Harry's rye field bears all the ear marks that operations preparatory to drilling will start at once.—Olds Gazette.

The U.F.A. Viewpoint
Two specific charges are laid against the present Government

by its opponents. It is claimed that the Government has been one of indecision and delay.

On the indecision charge it is claimed that the Government has done nothing of a constructive nature during its term of office. In answer, here are a few of the things it has done.

It has transformed a deficit of \$2,118,209 under the Liberal regime in 1921 into a surplus of \$188,019 in 1925.

Ready- for any road

The Sealed Chassis "Shower Bath" furnishes striking proof of McLaughlin-Buick dependability.

It may be difficult to believe that any motor car chassis could run under its own power with water hitting it in a drenching shower.

But the McLaughlin-Buick chassis did it. Water cannot get in, dirt cannot reach McLaughlin-Buick operating parts. Even the electrical wiring is sealed inside waterproof, fireproof, flexible tubing.

McLaughlin-Buick is ready for any road and any weather, thoroughly prepared to give McLaughlin-Buick owners thousands and thousands of care-free, trouble-proof miles.

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.

The Better McLaughlin-Buick leads in registration all cars in its price range. E-2130

Attract The Tourists

It is an economic truism that the imports and exports of a country must balance. That is to say, if a country imports more than it exports it must pay the difference in gold, which means that it sends money out of the country, that is, exports it. Thus is the balance maintained. On the other hand, if a country exports more than it imports then it has to be paid, which means an import of gold. Thus the country whose exports in raw materials, natural products, manufactured goods and general merchandise exceed imports of a like character, and to whom the importing countries must therefore remit gold in order to balance accounts, can hardly help but prosper and grow wealthy.

There are, however, what are termed invisible imports. For example, Great Britain is obliged to import food and other necessities of life on a huge scale, and it not infrequently happens that British exports of coal and manufactures do not equal these imports in value. Thus the balance of tangible trade is against Great Britain. But this is more than offset by the fact that the mercantile marine of Great Britain is the greatest trade carrying agency in the world and all countries pay tribute to Britain. The earnings of British shipping constitute a great but invisible import, and these imports, like exports, add to the national income and wealth.

There is another class of imports which operates in the same advantageous way, and one in regard to which Nature has equipped Canada to reap great benefits if the Canadian people make full use of their opportunities. We refer to tourist traffic. A tourist brings at least one thing with him—money. He spends it in travelling and hotel expenses, in means of recreation and pleasure, and in purchases in the country visited. Making Canada attractive from the standpoint of the tourist is, therefore, good national business. It will not only draw countless thousands of visitors from other countries, but it will encourage Canadians to spend their vacations in Canada, thus keeping their money at work for and in Canada, and in making them better acquainted with the Dominion and its enormous possibilities.

As already stated, Nature has done its part in richly endowing Canada with some of the finest scenery in the world and by making the Dominion a veritable sportsman's paradise. The Canadian climate, both in summer and winter, makes a strong appeal. But these things are not enough in this age. Tourists not only demand these things, and a marked change from the environment in which they live most of the year, but they insist on all modern comforts and conveniences, and go where they can be obtained.

Canada must, therefore, be made a country noted for its good roads if it is to capture any large share of the automobile tourist traffic which has now reached such large proportions. Canada must cater to the needs and tastes of all tourists by chains of good hotels, by bungalow camps, attractive summer and winter resorts.

Tourists will go where the greatest beauty beckons, the best roads lead and reasonable comfort and necessary conveniences can be enjoyed. A motoring tourist along a good road arriving at a town or village which presents a well kept and clean appearance, streets well treed, an attractive little park, and residential lots, both back and front, tidy and with trees, shrubbery, grassy spaces and flowers, and where the hotel, no matter how small, is spotlessly clean and good meals served, will almost certainly stay awhile. But if the town or village is the opposite of these things, it is even more of a certainty that the tourist will hurry right on.

It costs some money to make our prairie cities, towns and villages pleasant and attractive. But it takes more of time and patience than it does real money to transform them as many have been and are being transformed into places of real beauty and restfulness. It is the development of the right type of community public spirit that really counts in the achievement of results.

The securing of a fair share of the growing tourist traffic of the continent is something that no Canadian city, town or village can afford to neglect. It is cash business, and frequently leads to larger and unexpected business developments, because many a tourist while on pleasure bent is also keeping an eye open for investment and business opportunities.

And the making of the home town bright, clean and attractive is in itself paying dividends to all the townspeople in increased local pride and pleasure at home throughout the whole year.

Boys' Hostel At Edmonton

The Church of England has opened a boys' hostel at Edmonton, the first of its kind in Alberta. The first lot of boys who will be cared for at this institution will arrive this month under the auspices of the church. A similar hostel has been operated in Montreal for some time and has met with considerable success, in placing boys on farms in the provinces of Quebec and Ontario.

Report On Hebrideans

Of the twelve families—69 people—brought in from the Hebrides for settlement in Canada last year, one family—one adult and five children—has been deported because they became a public charge. In the House of Commons in answer to a question it was also stated that Father MacDonnell, who supervises the assisted immigration of the Hebrideans was paid \$1,741 salary and \$2,177 expenses.

Cannibalism Exists In French West Africa

Indulged In By Secret Society Of Witch Doctors

Cannibalism exists and is practiced to a considerable extent in several villages in French West Africa, bordering the Liberian frontier. This cannibalism is indulged in by witch doctors who form a small but active secret society. Recently two of them, one a woman, were arrested. The woman, in her confession revealed details of the manner in which two children had been murdered and eaten by the witch doctors. She explained that the rules of their secret society demanded that the victim should always be done to death by seven of the witch doctors, who otherwise would lose their magic powers. Members of the society were most particular always to sacrifice members of their own families as they believed that the flesh of strangers might be bewitched.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as **King over all Pain**. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

High Altitude Affects Taste

Everest Climbers Found Onions and Peppermint Had No Flavor

A curious effect of high altitude was found, it is said, by the men who tried to reach the summit of Mount Everest. At a height of nineteen thousand feet the explorers lost their sense of taste, such food as onions lost its flavor, and peppermint had no pep left by which it might be known.

They Worked a Miracle for Him

So Says Ontario Man of Dodd's Kidney Pills

Mr. H. Austin suffered with backache, headache, and was gradually losing strength.

Coldwater, Ont.—(Special).—There is no more enthusiastic believer in Dodd's Kidney Pills anywhere than Mr. H. Austin, a well-known resident here. He has good reasons for his enthusiasm. He writes: "This is to praise Dodd's Kidney Pills for what they have done for me. I think it is a miracle. I suffered so much with my kidneys and pains in my legs and back. My head ached and, in fact, I seemed to lose my strength. After using six boxes of Dodd's Kidney Pills I am now quite well. Thanks to Dodd's Kidney Pills, which I always keep in the house now. I have gained in weight."

Many men suffer periodically with backache and, as middle age approaches, the pain increases in severity. Rest may give temporary relief, but Dodd's Kidney Pills do more than this. They strengthen weak kidneys and remove the cause of the pain.

Studying Industrial Conditions

Eight English Workingmen Sent To U. S. By London Paper

A unique delegation arrived in New York recently aboard the Carmania. They were eight British workingmen. One was a patternmaker, one a boiler-maker, one a blacksmith, one a tool-maker, one a molder, one an ironworker, one a fitter, one a "machine man." They came to the United States for four weeks on invitation of the London Daily Mail, one of Lord Rothermore's papers. They are eight actual workers, not labor leaders, sent to examine working conditions, wages and industrial methods in the United States. The newspaper is paying all their travelling expenses, paying their wives (who remain at home) the men's usual wages, giving the men one hundred dollars each for extra clothes and fifteen dollars a week spending money, and providing each with a five thousand dollar life and accident insurance policy while on the trip.

A Reciprocal Tariff

Canada Would Reduce Duty On Cattle If United States Takes First Step

Hon. W. R. Motherwell, minister of agriculture, announced in the House of Commons that the Canadian Government was prepared to adopt a "brick for a brick policy" with the United States in the reduction of duties on cattle. "Every step taken by the United States Government," he said, "in the way of a reduction in duty on Canadian cattle will be met by a corresponding reduction in the Canadian duty against American cattle. We have a brick for brick policy. That is to say every brick the Americans take off the tariff wall against us will be met with the removal of a corresponding brick from our tariff against American cattle."

Mr. Motherwell announced that the government this month had passed an order-in-council authorizing the minister of finance to take such action as may be necessary in the direction of reducing the Canadian tariff on cattle in the event of the United States making similar reductions.

Delicious Dessert

Caramel Pudding, a Dessert That Makes Itself

One of the most delicious desserts one can serve, and it is one especially loved by children, can be said practically to make itself. It is called Caramel Pudding. Here it is:

"Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream. To serve individually, cut in slices, garnish with nut meats and whipped cream—or use plain unsweetened cream, with or without garnish."

Tin Added To B.C. Minerals

British Columbia's reputation as a mineral producing province received a decided impetus during 1925 when tin was added to the list of valuable minerals, production of which has brought the province to the forefront in the producing areas of the world.

Acreage in sugar beets in the irrigated districts of Southern Alberta will reach 7,000 acres this season. This is 1,000 acres more than the contracted area of last season.

HOW WEAK GIRLS CAN GAIN STRENGTH

It Comes Through the Tonic Blood-Making Qualities of Dr. Williams' Pink Pills

In the life of almost every girl there comes a time when weakness attacks her. The strain upon her blood supply becomes too great, and there follows headaches and backaches, loss of appetite, attacks of dizziness, heart palpitation and constant weariness and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And there is no other treatment so sure and so speedy as that through the blood-making qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

Here is a bit of positive proof of the value of Dr. Williams' Pink Pills in cases of this kind. Miss Clara Fraser, Thessalon, Ont., has been brought back to health and strength through the timely use of this medicine, and gives expression of her gratitude as follows:—"I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. They have restored me to health. If, indeed, they did not save my life. I was suffering greatly from anaemia. I lost flesh and always felt tired and nervous. At last I grew so weak I had to remain in bed. The doctor did not seem to help me any and I was growing weaker, and my heart was bothering me. At last a friend who called to see me said she had read of a similar case restored by Dr. Williams' Pink Pills and urged me to try them. I felt helpless but decided to take her advice, so my mother got me a supply of the pills and I began taking them. It was not long before I began to find benefit from the use of the pills, and in less than two months my health was restored. In fact I was in better health than I had ever enjoyed before. I strongly recommend Dr. Williams' Pink Pills to all who are weak and run down, for I feel sure they will not be disappointed."

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In certain gulfs and bays the tide rises as high as 50 feet.

It never reduces the size of a clasp against an estate to file it.

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

HAS CONFIDENCE THAT MERCHANT MARINE WILL PAY

Ottawa.—"I am very far from regarding the Canadian Government Merchant Marine as it is sometimes lightly and ridiculously called 'a white elephant,'" Sir Henry Thornton said in reply to a question before the railway committee of the house.

He was hopeful that with caution in its management, diligence, economy, and due regard to pushing its business the merchant marine would be able in future years to show a substantial profit on its operation, although it would not, at least for many years to come, be able to return interest on the amount of money the ships cost.

"For the first five months of this year," Sir Henry said, "the C.G.M.M. had an operating profit of \$62,000. This is the first time of any protracted period that it has been able to show a substantial profit."

He added this was a pleasant indication not only for the government ships, but also showed an improvement in international trade which was beginning to get back into its stride.

"With regard to the Canada-British West Indies trade," said Sir Henry, "it does offer considerable promise. We will be in a favorable position by getting in early. The next ten years will be profitable to whoever goes into it and to Canada."

Says China Resents Foreign Interference

Geneva Representative Becomes Excited At Meeting of Opium Commission

Geneva.—China is sick to death over foreign interference in her domestic affairs.

Mr. Chu, the Chinese minister to Italy made this declaration during a tempestuous session of the permanent opium commission in a violent altercation with the British delegate, Sir Malcolm Delevigne.

Sir Malcolm had criticized the importation of morphine into China.

He talked of the readiness of the Chinese to make war on Great Britain.

"If you can find a Chinese who is not anti-foreign and not anti-British, I'll say he is not a good Chinese," exclaimed the minister.

The word battle became so heated that M. Bourgeois, president of the commission, was obliged to adjourn the session.

Many Injured In Gas Main Explosion

Weak Seam Given As Cause Of Accident In Los Angeles

Los Angeles, Calif.—Nine persons were injured, some seriously, when a sixteen-inch gas main exploded in the crowded east side of the city.

With a roar that could be heard a mile distant, the blast ripped a gaping hole in the pavement 100 feet long and 15 feet wide, and piled the remains of three buildings into a dusty, smoldering heap.

Six pleasure cars and three trucks, which were passing, were lifted high into the air and dropped, demolished and burning, into the great hole.

Damage in excess of \$200,000 was estimated by police. It is believed, however, that losses will exceed that figure.

A weak seam in the big main was given as the cause of the blast.

Franco-Syrian Treaty

Paris.—A Havas dispatch from Constantinople says that the French ambassador, Albert Sarraut, and Tewfik Rushdi Bey, foreign minister at Ankara, have signed a Franco-Syrian treaty. The treaty was negotiated several weeks ago by Henry De Jouvenel, French high commissioner for Syria.

Arrest U. S. Diplomat

Honolulu.—A special dispatch from Tokio to Hoshi Shu, Japanese newspaper here, says that O. K. White, a member of the United States embassy staff in the Japanese capital, was arrested while taking photographs in the Sasebo naval base.

Protest From Livestock Board

Open Letter Is Sent To the Minister of Agriculture

Winnipeg.—The board of directors of the Winnipeg Livestock Exchange has sent an open letter to Hon. W. R. Motherwell, minister of agriculture, in opposition to what is termed in the letter "propaganda" published to the effect that the livestock exchanges regulations on the western markets "are opposed to the marketing of co-operative shipments of livestock and the pooling of livestock."

The letter states that the exchange had wired the minister asking if he had been, correctly quoted in recent interviews and that the following reply had been received from Mr. Motherwell:

"Gave no formal interview re matter referred to, but did draw attention of press men that co-operative marketing in west had now become so general and popular that at present stockyards regulations did not permit farmers pooling their livestock sales legitimately, then it might, and possibly would, be desirable to change such regulations."

The letter says the exchange "would be pleased to be advised by you just what regulations oppose the marketing of co-operative livestock or the pooling of livestock."

The letter points out that practically all exchanges in the west operate under the same regulations; that if there are any regulations prohibiting the practices named, that the exchange would assist in removing them "for good business reasons." In regard to the latter it is stated that such regulations would affect all the commission firms operating on the Winnipeg exchange.

Tidal Wave In Burma

Death Toll Has Reached a Total Of 2,800

Rangoon, Burma.—The death toll of the recent cyclone and tidal wave on the coast of Burma has reached a total of 2,800, according to a report submitted by the commissioner of the district of Arakan.

It is feared that the total number of deaths may reach almost 4,000 in the affected regions.

Huge property loss has been suffered through the area which was swept by the gigantic death-dealing gale. Residents fled hurriedly from their homes in a desperate but often vain effort to escape the pursuing death, and they left their personal effects behind.

Relief work is progressing as well as possible, but it is said to be totally inadequate to meet the present situation.

Canadian Envoy To U. S.

Appointment Is To Be Made Says Senator Dandurand

Ottawa.—Senator Dandurand, government leader, replying to a question in the senate, said the government intended to appoint a minister plenipotentiary to Washington. As to when the appointment would be made, this was under consideration.

Senator Dandurand said there had been no correspondence between the Canadian and the United States Governments in reference to the appointment of an American ambassador to Ottawa.

Will Not Receive Degree

Cambridge University Withdraws Proposal to Honor Ramsay MacDonald

London.—Cambridge University has withdrawn its proposal to bestow the honorary degree of Doctor of Laws upon former premier Ramsay MacDonald, parliamentary chief of the Labor party.

Notification was given that there would be some opposition in the senate of the university, and Mr. MacDonald intimated that he had no desire to receive a degree by majority vote.

Missing Evangelist

Los Angeles.—The Los Angeles Times says it has learned through confidential, but thoroughly reliable, sources that Mrs. Minnie Kennedy, mother of Alcee Semple McPherson, missing evangelist, is negotiating with two men who declare they will return Mrs. McPherson for the \$25,000 reward recently offered by Mrs. Kennedy.

ALBERTA SCHOOL QUESTION GOES TO SUPREME COURT

Ottawa.—Hon. Ernest Lapointe, minister of justice, announced in the house that the department of justice had in hand reference of the Alberta school question to the Supreme Court of Canada.

"I believe," said Mr. Lapointe, "that this solution is fair to all parties and I earnestly hope that this delicate question will in this way be settled definitely and removed forever from the field of controversy."

Mr. Lapointe said the amendment made by the legislature of Alberta, "without our consent" to the natural resources bill suggested that the laws of the province might differ from, or be in conflict with Section 17 of the Alberta Act. Otherwise, the amendment would be useless and futile. The Alberta Act had stood as the constitution of the province for 21 years. "We cannot directly or indirectly, even in a tact manner, acknowledge that its validity might be subject to question," added Mr. Lapointe. However, the Dominion Government was prepared to take immediate steps for a reference to the Supreme Court. "We will submit the act and support its validity and give an opportunity to those who question it to present their views," Mr. Lapointe said.

Obtain Weapons Too Freely

Are Too Many Permits Issued To Carry Arms

Ottawa.—"Too many people at present have the power to issue permits to carry arms," declared Commissioner Starnes, of the Royal Canadian Mounted Police, in testifying before the senate committee which considered Senator Belecourt's bill to restrict the importation, manufacture and sale of weapons in Canada. The measure proposes that license must be obtained for the importation, manufacture and sale of weapons.

Neither justices of the peace nor sheriffs should have the right to issue permits," Col. Starnes said.

The committee will meet again at the call of the chair.

Wembley Will Be Sold At Auction

No Private Tenders Have Been Received By Liquidators

London.—Wembley is to be sold. The liquidators, after vainly endeavoring to get a bid for the great exhibition grounds and buildings by private tender, have decided to put the whole up at public auction. The site covers about 132 acres, and the sale will include the Palace of Engineering, the Palace of Industry, as well as the Stadium, which will accommodate 100,000 people. Several of the Dominion pavilions will also be included in the sale.

Three Life Savers On World Cruise

Photography ranks among the most popular of the many pastimes on board ships making cruises around the world. Under sunny skies and with perfect weather conditions, not many can resist the lure of the little black box which magically reproduces striking likenesses of places and people. Soon after breakfast an army of amateur photographers appear on the scene prepared to "shoot" anything in sight, providing the interest is good enough. Tourists feel that nothing brings back happy memories of pleasant travelling days so succinctly and sharply as pictures.

Above, from left to right are Miss Dorothy and Miss Marjory Hager, of Vancouver, B.C., snapped on the deck of the Canadian Pacific liner Empress of Scotland, while making the Round-the-World Cruise this year. The Misses Hager with the round disk form a trio of life savers.

Higher Favorable Trade Balance

Canada's Excess of Exports Over Imports Greatly Increased

Ottawa.—Canada's favorable balance of trade (the excess of domestic exports over imports) was nearly \$380,000,000 in the 12 months ended April 30.

This is nearly \$100,000,000 more than in the 12 months ending April 30, 1925.

In the 12 months ending April, 1926, domestic exports were \$1,315,000,000; imports \$936,000,000. The excess of exports over imports was \$379,000,000.

In the 12 months ending April, 1925, domestic exports were \$1,080,000,000; imports \$795,000,000. Excess of exports over imports \$285,000,000.

Attempt To Criticize King George Quashed

Laborites Told By Speaker It Would Not Be Allowed

London.—An address of thanks to King George for his proclamation continuing the state of emergency because of the coal strike was carried in the House of Commons, 249 to 100.

An attempt to criticize the King by some of the Laborites, notably the Clydesider, G. Buchanan, was quickly quashed. The speaker told the Laborites they could not bring the sovereign's name into the discussion because what he had done was done on the advice of his ministers.

To Raise New Loan

Dominion Loan Not Exceeding \$150,000,000 To Be Sought

Ottawa.—Authorization to raise a Dominion loan not exceeding \$150,000,000 will soon be sought from parliament by Hon. J. A. Robb, minister of finance. The loan is for the purpose of paying, redeeming or otherwise retiring the whole or any part of loans or obligations of Canada and for public works and general purposes.

The Dominion Government has \$35,000,000 in two-year notes maturing October 1, and \$8,000,000 in two-year notes maturing November 15.

Foot and Mouth Disease

London.—The foot and mouth disease of cattle is brought into England in the carcasses of pigs imported from the continent by British factories which cure the meat of the pigs. Rt. Hon. Walter Guinness, minister of agriculture and fisheries, made this statement in an address to the council of agriculture of Middlesex County at the Guildhall.

Finish Drydock Soon

Victoria, B.C.—The new \$6,000,000 government drydock here will shortly be completed. The gate is nearing completion at Yarrows, Limited. Tenders have been closed for the construction of two electrically operated cranes. This will be the last contract to be let before the official opening, about the third week in August.

SERIOUS SPLIT IN LIBERAL PARTY IN GREAT BRITAIN

London.—That the Liberal party of Great Britain has been completely rent asunder and that all political association between the Earl of Oxford and Asquith, leader of the party, and David Lloyd George, its parliamentary chairman, has been irrevocably ended is admitted by the Liberals themselves, no matter to which leader they are adhering.

Pending further developments following letters from the Earl of Oxford and his supporters, it is assumed that the Liberals in parliament will form into two groups and act independently of each other.

The National Liberal Federation, the main organization of the party, will meet the week after next. The question of party leadership is expected to dominate all other business. It is reported that the federation will be asked to vote confidence in the Earl of Oxford.

The Daily News says nothing now can save Liberalism but action by the rank and file of the party who themselves must achieve its salvation.

No Action On Cattle Tariff

U. S. Legislation Not Possible Before Next Congress Meets

Washington.—Talk here in reference to the cattle tariff, growing out of Hon. W. R. Motherwell's statement to the House of Commons at Ottawa, is that there is no likelihood of any change in the present situation in the near future. It is pointed out no legislation is possible before the seventeenth congress, which will be elected next November, but will not meet in regular session for a year and a half.

So far as the flexible tariff is concerned officials of the tariff commission point out there is nothing formal before them on cattle rates. While there has been agitation by some livestock interests on this side to let down the bars as to feeder cattle other livestock interests are fighting the proposition. With a congressional campaign on and with the agricultural situation in the middle west, north-west and south unsatisfactory there is little or no prospect, it is felt here, for opening up the cattle tariff question.

New Polish President

Will Soon Step Aside In Favor of Pilsudski Say Politicians

Warsaw.—The hectic career of Professor Ignaz Moscicki—variously known as a rebel's son, a world famous inventor, and once a fugitive from his country—has reached a climax in his election to the presidency of Poland, in which office he will fill the role of Josef Pilsudski's puppet.

Warsaw received news of his election with a calm that was almost disinterested. Moscicki will be president for a day, say the politically wise of the capital—long enough to shoulder the blame for any mistakes of the transition period—then he will step aside when the constitution of Poland has been re-shaped to suit the dictator, and Pilsudski will take over the office along with the power which in reality will be his all along.

Cure For Leprosy

New Treatment Devised Meets With Great Success

Berlin.—A new treatment for leprosy has been devised by Prof. S. Paldrock, of the University of Dorpat, Esthonia, who in an article in the German Dermatological Journal, announces that after many years of experimentation, he had succeeded in killing the leprosy germ by means of freezing.

Carbolic acid "snow" was applied to diseased tissue with the results that of 16 patients treated, seven already have been discharged as wholly innocuous to society, the article said.

Will Not Be Candidate

Edmonton.—Ex-premier Herbert Greenfield has announced that he will not be a candidate in the Alberta general election June 28. He expects to take an active part in the campaign, addressing meetings on behalf of the U.F.A. candidates.

Church Announcements

EVANGELICAL NOTES.

Welcome to our Children's Day program next Sunday evening. This program was to be given last Sunday but on account of the rain and bad roads it was postponed to next Sunday evening, June 20. There will be special music by the choir, as for the program no effort has been spared to make it the very best possible. One of the main purposes of Children's Day is to arouse public opinion to the need of more adequate facilities for offering a worthy program of religious education to our boys and girls and further we believe that such a program will help to safeguard the morals of our children. Remember the decorations, come and see.

Remember the Ministerial and Christian Workers' convention to be held here in our church July 1, 2, 3 and 4. Bishop Maze, D. D., Harrisburg, Pa., will be the presiding officer. Printed programs are in process of preparation now and will soon be ready for public announcement.

KNOX UNITED CHURCH

Mr. Hayes has taken as his subject for Sunday, June 20th "Politics according to Christ." Inasmuch as the Provincial Election is pending, this is a timely subject. Christianity is a political force, and in the end determines the organization of community life. It is the greatest of political forces, because it is the greatest of spiritual forces, and because it is by spiritual forces and laws that the world is ultimately governed. The Text is taken from Matthew 20 and has to do with the two disciples that asked for the chief places of power.

At 3 p.m. the Masonic Order will hold Divine service. Rev. Mr. Hayes is to preach.

Sunday June 28th is Patriotic Sunday.

Westcott.

Miss Eva Good spent the week end at home.

The Hughes Bros. have traded a bunch of horses on a 15-30 Hart-Parr tractor and have purchased a John Deere breaker. More power to them.

Mr. Chris. Snyder has purchased the latest model Ford touring car.

Mr. and Mrs. Ira Scott spent Sunday at Mr. and Mrs. F. A. Murphy's.

The club meeting on the 14th of June was quite successful, though the rain kept quite a number away, a very amusing baseball game was played. We are expecting Mert will be playing professional ball before long.

We are sorry to hear that Mr. W. Brown was taken to the General Hospital of Calgary for an operation for pneumonia.

The Minstrel Troupe are putting on their program at Rugby school on Wednesday June 23, and at Lone Pine Community Hall on Friday, June 25th. It will not be put on at Harmattan as was reported.

Bug riding is great fun, "Eh, Eva," especially when the ditch isn't very deep.

Minnesota Patch Easy Winner.

The Pioneer has received the following by mail:—

At Drayton, Ont., May 24th. Races, 2:20 trot or pace—Peral D. 2:11; Peral J 1:22; Miss Bott 2:33. Time 2:22 1-2.

2:30 trot or pace—Hardy Todd 1:11; Darkie Jim 2:23; Bingo, 3:23. Time 2:21 1-4.

2:50 trot or pace—Minnesota patch 1:11; Minnie Dell 2:22; Lady Irebell 3:33. Time 2:21 flat.

Minnesota Patch easy winner and very pretty goer. Wm Burrell, up.

Quite a number of our customers are taking advantage of our Free Photo Deal.

Don't forget--- \$25.00 worth of purchases of

Groceries or Meats during this month entitles you to a Photo.

A great many things improve with age---Try some of our Steaks.

Fresh Vegetables.

Fruits always on hand.

We Buy all Produce.

Voters Attention

Directions as to the Use of
Preferential Ballot.

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The Voter MUST NOT USE THE X MARK.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite this second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

Read These Instructions Carefully.

JOHN D. HUNT,
Clerk of the Executive Council.
Government of Alberta.
